What are some of the causes of Knee Pain?

- ▶ Injury (ACL tear, Torn Meniscus, Knee Bursitis, Patellar Tendinitis, etc.)
- ▶ Mechanical Problems (Loose cartilage or bone, Iliotibial band syndrome, etc)
- ▶ Arthritis
- ▶ Excess Weight
- ▶ Biomechanical problems (one leg shorter than another, flat feet, etc)
- ▶ Lack of flexibility
- ▶ Repetitive use injury
- ▶ Sports (Skiing, basketball, running, etc)

Whether caused by a direct injury, repetitive use, or an underlying condition, knee pain is a common complaint and can be very disruptive to everyday life. Chiropractic treatment is very effective for many of the problems that cause knee pain. Even conditions such as osteoarthritis, while not curable,

How we help:

Why Chiropractic care?

- ▶ The Knee is a complicated weight bearing joint that can be painful for a lot of reasons.
- ▶ Medical doctors usually only look at the symptoms and prescribe medications to treat those symptoms rather than addressing the underlying condition
- ▶ Most prescription pain medications are dangerous and become less effective at reducing pain as time progresses
 - ▶ Chiropractic care will address the underlying conditions rather than just the symptoms.

What will happen during your visit:

- ▶ A physical inspection of the knee and body system that surrounds it (hips, low back, pelvis & feet)
- ▶ A Medical History will be taken
- ▶ We will create a treatment plan to address your specific concerns and causes of your pain

Treatments we can use:

- ▶ Chiropractic Adjustments to align low back and hips to correct posture and body mechanics
- ▶ Physical Therapy
- ▶ Massage Therapy
- ▶ Ultrasound or E-stim to reduce inflammation and pain

Meet Dr. Cutitta

Dr. Cutitta has been practicing chiropractic care since 2004. After seeing how chiropractic care helped his parents, he wanted to provide the same care to his own patients. He is committed to providing excellent care and helping his patients achieve optimal health and well-being.

Through years of experience, Dr. Cutitta can pinpoint the source of a patient's pain. "We can pretty much treat every joint in the body - head to toe". Though his primary complaints are headaches and backaches, Cutitta Chiropractic has treated patients with injuries and pain in all areas of the body.

In addition to providing excellent care, Dr. Cutitta is dedicated to helping in the local community. Through continued community outreach, including lectures, pamper events and fundraising opportunities, he tries to give back as much as he receives.

If you have any questions for our office, don't hesitate to ask us! Dr. Cutitta always wants to keep communication open between himself and his patients, and genuinely cares about every question he receives.
